

Mrs. Monell and Mrs. Garbutt's 2nd graders travel back in time!

Our 2nd grade class had a beautiful day for a visit to Historic Cold Spring Village in Cape May, NJ. The students toured the village, with 26 restored historic buildings where they gained first-hand exposure to life as it was for our ancestors of the early 19th century. They learned from historical guides in period clothing who demonstrated the trades, crafts and lifestyles of the 19th century including a blacksmith, potter, basketweaver, and school teacher. Our class enjoyed the gardens, the museum, the farm, and got to play in the activity area where they took part in a variety of projects. Our students experienced Cold Spring Village as an important historical resource that helped them understand the connection to our past.
