Student Ambassador Team Members Wanted:

Part of becoming a certified Level 1 High Reliability School is being a demonstration site moving forward. A very powerful testimony during our demonstration site visit a few weeks ago was a student forum where our students talked to our visitors about the changes they have seen in our district over the past few years.

In preparation for hosting future groups, I would like to develop a Student Ambassador Team. These students would be called on to have conversations with our guests during HRS visits. These students may also be called on for other events when we host guests in the building (music programs, lunch w loved ones, etc).

If you are interested in being part of this team, please come see Mr. Follingstad or let a teacher know.
