

Source4Teachers has partnered with Vidalia City School District to manage its substitute program!

Starting next school year, Vidalia City School District's substitute personnel (including teachers, paraprofessionals, food service workers, and clerical personnel) will be provided by Source4Teachers, a leading educational staffing and management firm.

What does this mean for current substitutes of Vidalia City Schools?

1. In order to continue substituting for Vidalia City Schools, you must become an employee of Source4Teachers.
2. Source4Teachers utilizes a version Aesop™ for substitute placement – the same program you currently use – which means procedures and preferences will remain the same.
3. Substitute pay rates will remain the same.
