

Dear Parent or Guardian,

As part of our commitment to your child's education, we want to share with you information about the Florida Prepaid College Board's Open Enrollment Period that ends February 29. College might seem like a long way off, but starting to save now means your child's tuition will be covered when they need it.

All Florida Prepaid College Plans are guaranteed by the State of Florida, and while the plans are designed to be used in state, if your child attends an out-of-state or private college, the plan will pay the same amount as it would pay at a public college or university in Florida.

The five Florida Prepaid Tuition Plans offer a variety of options starting at just \$46 a month. The younger your child, the more years you have to save, and the lower the monthly payments for a Florida Prepaid Plan.

It is never too early to begin investing in your child's future. Multiple studies have found that students with college savings are more likely to attend and finish college and that having a degree greatly improves lifetime earning potential. For example, a Georgetown University study estimates that a student with a bachelor's degree can earn \$1.6 million more in their lifetime than a student with only a high school diploma.

We are also pleased to offer promo code, **SUP1516**, for a free gift pack for families that purchase a Florida Prepaid Tuition Plan before Open Enrollment ends February 29.

Open Enrollment runs through February 29, 2016.
