

Dear Patrons

Thank you for the recent approval of the May 2016 Supplemental Levy. The administration of the school district understands the responsibility to utilize these funds as communicated to our patrons and according to Idaho Code. As always, the goal is to meet the needs of the students in Wendell School District.

On Monday, May 23, 2016, the district is meeting with the Garland Roofing Company to ensure that plans are effectively in place to renovate the roof on the Wendell High School Gymnasium. Even though supplemental levy funding does not come to the school district for several more months, Garland Roofing has agreed to carry the district's contract and begin the construction immediately after school is dismissed for the summer.

Please watch this website for pictures and information on the progress of the new roof and the utilization of these valuable supplemental levy funds. As a reminder, here is the two-year plan.

### A Two-Year \$600,000 Supplemental Levy

#### Year 1

\$155,000 (This has been in place since 2006)	Supports staff salaries and benefits
\$460,000	High school gym roof renovation
<i>Note that the total is \$15,000 over \$600,000</i>	District general fund covers the overage

#### Year 2

\$155,000	Supports staff salaries and benefits
\$330,000	High school metal roof recoating project
\$67,000	HVAC system upgrades
\$48,000	Preventative Maintenance fund
