March 19, 2015

Dear Students, Parents, and Staff,

On March 11th we sent a letter preparing for the beginning of construction on the new elementary building. We indicated that Scherrer Construction would begin staging equipment during the week of March 30th (Spring Break) in preparation for the early stages of construction making the Northeast area of the property off limits.

After additional meetings with Scherrer, the closing of the Theater Road entrance and the Northeast area of the property is no longer necessary. The facility will remain fully accessible for the remainder of the 2014 – 2105 school year.

The restrictions will be put in place at the end of the school year. Vehicles and individuals walking will not be able to use the Theater Road entrance starting June 8th. This will be a construction only entrance. These restrictions will remain in place throughout the entire construction process (August 2016).

The district will be making arrangements to transport students by bus from the subdivisions on Theater Road during the 2015 – 2016 school year.

This is a very exciting time for our school district as we build the new school. The construction process will create some inconveniences and difficulties that we will have to work through, but the end result will be well worth the temporary sacrifices that we will have to make during the construction process. We appreciate everyone's cooperation in advance.

Sincerely,

Dr. Wayne Anderson
Superintendent
Williams Bay School District

Dr. William White
Principal
Williams Bay Jr./Sr. High School
