

## **Annual Progress Report**

### **11-12 Student Achievement Goals**

*Annual Progress Report (APR) requires that we set achievement goals in reading, math, and science. Based on our data, our input from SIAC, and our BLT input suggested goals in 2011-12 will be:*

#### **Reading:**

There will be an increase in the **average percentage of all students** in current grades 6, 7, and 8 who score at the proficient level or above on the Iowa Assessments Reading Comprehension Test. Comparison will be made using the cohort group grades 5, 6 and 7 average score in 10-11 which was **72.3%**

#### **Mathematics:**

There will be an increase in the **average percentage of all students** in current grades 7 and 8 who score at the proficient level or above on the Iowa Assessments Mathematics Test. Comparison will be made using the cohort group grades 6 and 7 average score in 10-11 which was **76.1%**

#### **Science:**

There will be an increase in the **average percentage of all students** in current grades 8 and 9 who score at the proficient level or above on the Iowa Assessments Science Test. Comparison will be made using the cohort group grades 7 and 8 average score in 10-11 which was **81.0%**
