MEDICATION ORDERS FOR ATHLETICS

Students who have orders for emergency medications, i.e. inhalers or epi-pens, do not have access to school supply during sports. Per Connecticut State Law, Section 10-212a-8, the parent or guardian shall provide the medication to the coach or athletic trainer. It shall be separate from the medication stored in the health office. Your child may carry their own emergency medication with a self-medicate order form from the physician.

Sincerely,

School Nurse
