## Technology Update: Parents

Hello Wolcott Families:

I'm writing to give you an update on our issues with our network. Efforts are ongoing to repair and restore our computer systems.

I want to ensure you that our experts continue to report no evidence of an impact to sensitive student data to date. The investigation is ongoing, and we will keep you apprised of significant developments.

A task force of network specialists has arrived in district. They have begun assessing and repairing our network in collaboration with our own staff. The Board of Education and I are committed to ensuring that our network security is restored to industry-standard levels. While state and federal law enforcement experts have informed us that it is impossible to fully prevent another such attack of malware, we will do everything within our power to reduce this risk.

Thank you for your patience and understanding during this trying time,

*Tony Gasper, Ed.D.*

Superintendent of Schools
