- The tuition fee must accompany the registration forms in order for the registration to be accepted.
- WSSP tee shirt payment must accompany tee shirt order form.
- **Reminder: No school on Wednesday, July 4, 2018.**
- Students **MUST** be attending the Wolcott Summer Studies Program to be eligible to attend Summer Latchkey or the Girls Inc. Programs. These programs run in conjunction with Wolcott Summer Studies and will not accept students who are not in the morning sessions of the Wolcott Summer Studies Program.
- Summer latchkey is only offered for the full five weeks, Girls Inc. however will allow students to attend any number of weeks. (1,2,3,4, or 5)

Please print, complete and mail the registration form, emergency form, and shirt order form (if you plan on ordering a shirt for your child).

Mail these forms with a check to:

**Wolcott Summer Studies Program
1490 Woodtick Road
Wolcott, CT 06716**

The tuition fee must accompany the registration form in order for the registration to be accepted. All applications received after June 1st will go on a wait list.

The shirt payment must accompany the shirt order.

Thank you for your cooperation

The Wolcott Board of Education extends an invitation to students, encouraging their participation in the 2018 Wolcott Summer Studies Program. This extensive summer program offers children a vast selection of high quality course offerings to improve, maintain and enhance their knowledge. It also provides socialization, athletic skill development and the opportunity to explore new interests. An assortment of art, music and theater experiences are available, including innovative courses, professional performances, field trips and guest speakers.

Students should review the catalog with their parents, fill out all forms carefully and return them with the tuition fee as directed.

Sara Tedesco, Director
Wolcott Summer Studies Program

PROGRAM INFORMATION

1. The program will be held at Wolcott High School, 457 Bound Line Rd., from Wednesday, June 27, 2018 through Tuesday, July 31, 2018. The program will run for 5 weeks. There will be no school on Wednesday, July 4, 2018.

2. Classes will meet daily from 8:00 AM – 12:15 PM with each child taking 4 full hours of instruction.

3. All students must be picked up between 12:15 – 12:30 PM. **Any student being picked up for early dismissal must bring a note to the Summer Studies Office with the dismissal time and reason for dismissal and the student must be picked up at the Summer Studies Office. Students attending extended day programs (Summer Latchkey and Girls Inc.) will be dismissed to the assigned area where program staff will take attendance).**

4. Participation in this program is strictly voluntary and all students must provide their own transportation. It is expected that each student enrolled will make every effort to attend class daily.

5. A 15 minute snack period will be held daily. Water, drinks and snack items will be available for \$1.00 each. Profits are utilized to offset supply costs. Your support is appreciated.

5. Suggested improvements to the program, the catalog, or any of our procedures are always welcomed.

6. Family or community members with unusual hobbies, interests, jobs or pets are always welcome to present them to our students.

7. All visitors to the Summer Studies Program must first report to the Summer Studies Office.

8. Please contact the Summer Studies Office at (203) 879-8162 (Kate Murphy at Alcott Elementary School) with any questions, problems or comments. During Summer Studies hours the office number will be 203 879-8171 (at Wolcott High School).

9. From time to time there is media coverage of our program. If you do not wish your child to participate in this coverage, please send a note to the Summer Studies Office indicating your desires.

REGISTRATION INFORMATION

1. The tuition fee (bank check) must accompany the registration form in order for the registration to be accepted.

2. Registration forms can be submitted by mail only. Registration deadline is Friday, June 1, 2018. All applications received after the enrollment limit has been reached, will be put on a waiting list in the order in which they are received. Mail registration forms directly to:

**Wolcott Summer Studies Program
1490 Woodtick Rd.
Wolcott, Connecticut 06716**

3. A minimum number of students is necessary for a course offering to be implemented. Courses may be cancelled if an experienced, knowledgeable instructor cannot be hired. The director may cancel any course offering that does not meet the minimum student/ course requirement.
4. List your course selections in order of your preference (1-10) with #1 being your first choice and so on down the list. Fill out this list completely. This is necessary due to the possibility of canceled courses or scheduling conflicts. If alternate courses are not listed, students will receive courses at the discretion of the director.
5. Schedules will be mailed home prior to the first day of classes.
6. Students entering grades 1-8 must register for 4 courses.
7. Students entering kindergarten in the fall will attend a full 4 hour program.
8. Some courses will require individual fees for supplies.
9. All students are required to pay tuition in full upon registration. Registration forms will not be processed without payment. (Payment **must** be made with a bank check or postal money order). Please make checks payable to WSSP.

Wolcott Resident Tuition Table:

\$100 per student for each family member in attendance

Tuition refunds will only be made if a Wolcott student withdraws by, or on, the first day of classes.

10. Non-resident students are required to pay tuition in full upon registration. Registration forms will not be processed without payment. (Payment **must** be made with a bank check or postal money order). Please make checks payable to WSSP.

Non-resident Tuition Table:

\$250 per student for each family member in attendance

Tuition refunds will only be made if a non-resident student withdraws by, or on, the first day of classes.

For any circumstance listed above, a written request must be received in the Summer Studies Office indicating the withdrawal and request for reimbursement. Students are considered enrolled until the written notification is received.

11. There will be a \$25 charge for all returned checks.

DAILY PROCEDURE

Please refer to the traffic pattern that will be posted on the website in the very near future.

COURSE OFFERING DESCRIPTIONS

- 1. GETTING READY FOR KINDERGARTEN** – entering kindergarten this fall. (4 hours) Limited enrollment.
This is an excellent opportunity to prepare children for their first full year in school. Children participate in a variety of theme days & activities which incorporate language arts, math & development of positive social skills. Music and gym will also be a part of this program.
***(Students will need to contribute an additional \$25 for supplies)**
- 2. C.S.I. CRIME SCENE INVESTIGATION** entering grades 1-2
Students in this class will become crime investigators and solve mysteries like the “Missing Oreos.” They will make their own detective kit and identification badge and then learn about the five steps involved in crime scene investigation which include: securing the scene, conducting interviews, examining the scene, taking photographs, and labeling the evidence found. They will learn about fingerprinting, too! This group of students will also get a chance to work with older students to examine evidence and discuss possible solutions to the crime in question.
- 3. BOOK COOKS** –entering grades 1-2
This course includes reading and recipes that are inspired by the stories told in the most popular children’s books. Students read and are read to, then make fun food and learn to “cook” the foods talked about in the text.
**** Please list all food allergies on the registration form when enrolling in a cooking class.**
***(Students will need to contribute \$10 for supplies)**
- 4. MOVING MUNCHKINS** – entering grade 1-2
Children will be introduced to stretching exercises, games with music and following directions. Children will have fun using parachutes, balance beams, mats, hoops, scooter boards, bean bags and balls.
- 5. BOOK CLUB** – entering grades 1-2
Join us as we read three different books and discuss important story elements. We will use text from each book to create small projects and a Journal! Following chapters in each story, students will take part in activities discussed in each book. READING has never been so FUN! Students are encouraged to purchase their own books but if you are unable to, we will copy them for you.
- 6. ANIMAL CARE** – entering grades 1-2
Students will study animals from various habitats. Parents and students will be permitted to schedule a time to have their pets visit the classroom, stressing their needs, care and training.
- 7. ARTS AND CRAFTS I** – entering grades 1-2
Individual projects and art experiences tailored to primary ability levels.
- 8. FUN WITH MUSIC** – entering grades 1-2
Choral singing, dance, games and exercise all set to music.
***(Students will need to contribute \$5 for supplies)**
- 9. DISCOVERING SCIENCE** – entering grades 1-2
Using videos and hands on experiments, students will explore a variety of scientific principles.
- 10. MOUSKA-MATH** – entering grades 1-2
Come join us on a magical math adventure. Discover how math is used in and by your favorite Disney characters and movies. Math concepts taught in grades 1-3 will be reinforced using themes from the most magical place on Earth.
- 11. ENCHANTED ENGINEERING** – entering grades 1-2
Using classic fairy tales as a basis for STEM(science, technology, engineering and mathematics) learning, students will learn in a very hands on literacy based course. Lessons will begin with reading and end with interactive learning. One example might include... reading The Gingerbread Man and then building a better raft for him to escape from the baker or following the recipe to make and decorate gingerbread cookies.
***(Students will need to contribute \$10 for supplies)**

12. **DINOSAUR DYNAMICS** – entering grades 1-2
Study different types of dinosaurs. Learn what happened through the earth's history to these marvelous animals. Expect to see videos, draw and make models. *(Students will need to contribute \$5 for supplies)
13. **SO YOU THINK YOU CAN DANCE** – entering grades 1-2-3-4-5
Based on the popular dance show students will create dances in class and learn about different types of dances. Students will dance "battle" each other during class and two lucky teams will be chosen to share their dances on the last day celebration of summer school.
14. **THE ART OF GOING GREEN!** – entering grades 1-2-3-4-5
Ever wonder what to do with all those "things" you have lying around. Why not make them into an Art project. This class will focus on making art out of recycled products. We will make art from old floppy disks, CD's, cardboard cup containers, puzzle pieces, recycled containers and even those packing peanuts. Join us for the FUN!
*(Students will need to contribute \$5 for supplies)
15. **ALL ABOARD** – entering grades 1-2-3-4-5
Dust off some of those old classic games and learn some new ones! Focusing on the traditional and family board games that many people know and love, as well as new games you might not yet be familiar with, but which we think you'll enjoy. So explore our games & have some fun! Students will be encouraged to bring in some of their favorites or perhaps a recent purchase from "Family Game Board Night".
16. **PEE WEE GYMNASTICS** – entering grades 3-5
Let's tumble for boys and girls – tumbling, floor exercises and techniques on different pieces of gymnastic equipment.
17. **NUMBER SKILLS** – entering grades 3-5
This course will stress the basic concepts of math. Patterns of addition and subtraction will be emphasized with the focus being on mastering the facts to twenty. Concepts of money and time will be practiced. An individualized approach will be utilized to strengthen and increase basic skills.
18. **DISCOVERING NATURE** – entering grades 3-5
This is a course with all outdoors for a classroom. Students will explore and discuss nature within the context of seasons, preservation, categorization and animal species. Knowledge gained through collections and discussions will be used to create art projects, scavenger hunts, group projects and individualized activities. *(Students will need to contribute \$10 for supplies)
19. **BOOK CLUB II**– entering grades 3-5
Join us as we read three different books and discuss important story elements. We will use text from each book to create small projects and a Journal! Following chapters in each story, students will take part in activities discussed in each book. READING has never been so FUN! Students are encouraged to purchase their own books but if you are unable to, we will copy them for you. We will be reading the following books:
20. **WRITING FOR THE FUN OF IT I** – entering grades 3-5
Creative writing – a companion course for Reading for the Fun of It. Practice your writing skills while publishing creative stories, poems and journals.
21. **EXPLORE THE WORLD** - entering grades 3-5
Students will explore five different countries (1 per week) in this course. Each day will focus on a different topic: music, art, customs, language, and festivals and traditions.
*(Students will need to contribute \$5 for supplies)

22. **KITCHEN KRAFTS I** – entering grades 3-5
Enter the delicious world of snacks, treats, foods all prepared by you. No kitchen experience necessary.
**** Please list all food allergies on the registration form when enrolling in a cooking class.**
***(Students will need to contribute \$20 for supplies)**
23. **LEGO ROBOTICS I** – entering grades 3-5
Students will work with simplified Lego robots of their own design and have these robots carry out basic operations, such as: go through a maze, pick up objects somewhere in the room.
24. **SCRAPBOOKING I** – entering grades 3-5
If you have some photographs and would like to do something creative with them, join the new scrapbooking course! Bring your photos and creative talents to construct beautiful scrapbooks that you can keep forever!
Fee for the course is \$8 which includes the scrapbook and materials. Additional materials may be purchased throughout the course.
Students will need to have a variety of photographs to sort – recommended 3-5 pictures per day.
25. **ELA EXTENSION:**
Small group class of differentiated instruction to target student’s weakness in English Language Arts. Assessment data is used along with teacher recommendation to determine eligibility. Students will be put into small class sections based on current levels. Students will receive a letter from school, if they are able to enroll in this course.
26. **ELL EXTENSION:**
English Language Learners will engage in lessons that included independent work and group work for children needing extra instruction toward learning the English Language. Student must qualify for ELL services and will notified by their teacher to enroll.
27. **MATH EXTENSION:**
Small group class of differentiated instruction to target student’s weakness in Math. Assessment data is used along with teacher recommendation to determine eligibility. Students will be put into small class sections based on current levels. Students will receive a letter from school, if they are able to enroll in this course.
28. **SPANISH FUN!** - entering grades 3-5
Come travel and explore some Spanish-speaking countries. Learn Spanish phrases, sing songs in Spanish, create piñatas, sombreros, and other Latin American arts & crafts, and prepare and sample some traditional Latin American food. Have fun learning Spanish and experiencing different cultures!
***(Students will need to contribute \$5 for supplies)**
29. **MUSIC THEATER WORKSHOP** - entering grades 3-5
Are you ready to try out your acting skills while singing and having fun! Students will explore a variety of acting and performance techniques, through the use of games, singing and the production of mini plays.
30. **FASHIONISTA’S ONLY** - entering grades 3-5
Explore the world of fashion with this exciting new course. Students will be completing simple do-it-yourself fashion projects, creating bracelets, scarves, necklaces, and more with old t-shirts brought in from home. We will view and explore the world of fashion by sketching our own designs, and by using fabric swatches and appliqué to add color, texture, and bling to our sketched creations. We will learn about accessories and how to combine them for the perfect look. Students will explore new hairstyles and nail art too! And how would you feel about a fashion show to show off your new creations and styles?? Come join the fun, all you fashionistas!
***(Students will need to contribute \$10 for supplies)**
31. **ENDLESS CREATIONS WITH THE ARDUINO** – entering grades 6-8
A lie detector, programmable rocket launcher, motion sensor alarm, reaction timer, electronic dice, keypad entry system, laser trip wire alarm, robot, Wireless ID card system, and a range finder are just some of the cool projects that use the power of the Arduino™ to operate. Students in this class will explore

ideas found in the following text:

<http://solderingsunday.com/shop/arduino/arduino-project-handbook/#sthash.k2tMnkQo.dpuf>

***(Students will be need to contribute additional fees for supplies depending on number of projects)**

32. **CARD SHARKS** – entering grades 3-5 and 6-8
Explore the vast world of card games and card tricks by learning games such as Hearts, Steal the Old Mans Bundle, Slap Jack, War, Spades, Solitaire, etc. Fun Friday will include “Tower of Cards” building. Let’s see how tall we can go!
33. **C.S.I. CRIME SCENE INVESTIGATION** entering grades 3-5
Students in this class will become crime investigators and solve mysteries while they learn about the five steps involved in crime scene investigation which include: securing the scene, conducting interviews, examining the scene, taking photographs, and labeling the evidence found.
34. **MATH MASTERS I** – entering grades 3-5
Students will improve their basic math skills while enjoying games, puzzles, brain teasers and operating manipulatives. This course is a must for pupils wanting to learn their facts and strengthen their abilities.
35. **CHEERLEADING 1** – entering grades 3-5
This course will offer the student an introduction to basic cheerleading skills, conditioning, partner stunts, cheers and pom pom routines. Cheerleading is an opportunity to express spirit and a way to have fun exercising.
36. **FIT PALS** – entering grades 3-5 and 6-8
Students will learn how to track and make fitness goals by logging daily food intake, exercise, and water consumption by using Fitness Pal. Students will examine data to discover ways to make healthy food choices. Fridays will be in school activity day and students will work on various fitness routines/walking.
37. **INSTRUCTIONAL BASKETBALL I** – entering grades 3-5
Basic fundamentals of dribbling, passing and shooting will be taught. Students will participate in structured games.
38. **GUITAR HERO** – entering grades 3-5
No, not the video game! This is for kids who want to learn the basics of playing the guitar and start a wonderful musical hobby. If you have your own guitar, GREAT! If not, you can rent one or we will do it for you. Class must have ten participants to be held. Students who took guitar last year may register for this course as well. Advanced lessons will be available as necessary.
39. **GUITAR HERO 2** – entering grades 3-5 and 6-8
This class is for students who have already taken Guitar Hero class and are looking to advance their skills. If you have your own guitar, GREAT! If not, you can rent one or we will do it for you. Class must have ten participants to be held.
40. **ARTS AND CRAFTS II** – entering grades 3-5 and 6-8
Individual and class projects will use a variety of materials to design and create unique, fun projects to enhance different aspects of art.
41. **BASEBALL, BASKETBALL, SOCCER, HOCKEY, TRACK & FIELD** – entering grades 3-5
A sampling of several sports is used in this class. Learn the rules and the fun of many different sports.
42. **INVESTIGATING SCIENCE** – entering grades 3-5
Hands on approach to earth, physical and life sciences will be used. Sure to inspire interest and enthusiasm.
43. **BASIC DRAWING I** – entering grades 3-5
This course will help any aspiring artist. Focus will be on line and shape. Emphasis will also be on spatial relationships and shading/shadowing. **An origami component will be introduced with many hands on projects.**
44. **INTEGRATED THEATRE** – entering grades 3-5 and 6-8

This theatre group is an integrated class in which students will participate in theatre games, movement and music activities. Students will have the opportunity to be peer helpers to students with special needs. Two small performances and one final production will be presented.

45. **WRITING FOR THE FUN OF IT II** – entering grades 6-8
Creative writing – a companion course for Reading for the Fun of It. Practice your writing skills while publishing creative stories, poems and journals.
46. **SIGN LANGUAGE** – entering grades 3-5 and 6-8
Learn the basic signs, letters and history of American Sign Language.
47. **CODING CRUNCHERS** - entering grades 3-5 and 6-8
Using Google CS (Computer Science) students will learn more about coding. Coding can be done on a device or computer and in activities requiring a pattern of actions; both will be explored in this course. Students can determine their interests and explore several popular coding languages.
48. **WOLCOTT IDOL** - entering grades 3-5 and 6-8
Based on the popular television show students will learn songs throughout the program to sing and compete against classmates. Two lucky students will be chosen to share their songs at the last day celebration of summer school.
49. **MINUTE TO WIN IT /MONOPOLY MANIA** - entering grades 3-5 and 6-8
Can you balance six dice on a popsicle stick? How about stacking five blocks on a paper plate and balancing them on your head? Then this class is for you! This course will have students focused and engaged at trying to complete as many one “minute” tasks as they can! Fridays will be reserved for Minute to Win It Tournament and Monopoly Mania will students will learn the importance of using their money wisely and to think before they buy!
50. **DUCT TAPE ART** - entering grades 6-8
Are you crazy for everything duct tape? Wild about wallets or bonkers for bags? If so, this is the class for you! Make awesome accessories from the funkiest duct tape colors around! Want to make a wallet, bracelet, flowers, bag, cell phone case or something else just as fun? Perfect - we'll show you how!
***(Students will need to contribute \$12 for supplies)**

60. **KNIGHTS OF WOLCOTT** entering grades 6-8
This chess class is open to beginners, experts and all in between. Learn the game played by kings. This helps with concentration, focus, problem-solving and thinking! Boards and pieces provided, but you can bring your own too!
61. **COMPUTER JOURNALISM** – entering grades 6-8 Limited enrollment.
Researching, interviewing, reporting and publishing our own newspaper filled with relevant and interesting articles. Student should have basic computer skills.
62. **GOOD WORKS WOLCOTT** - entering grades 6-8
Come learn about the services offered in Wolcott and participate in making our community a better place. Community service hours can be earned through weekly opportunities in town for volunteering. Guest speakers from town services will be invited in to share about what they do.
63. **SO YOU THINK YOU CAN DANCE II**- entering grades 6-8
Based on the popular dance show students will create dances in class and learn about different types of dances. Students will dance “battle” each other during class and two lucky teams will be chosen to share their dances on the last day celebration of summer school.
64. **SCIENCE OF ART** – entering grades 6-8 Limited enrollment.
Be an artist! Be a scientist! Be it all in this program students will conduct experiments that will help them gain understanding of science based concepts such as torque and electricity. Once skills are mastered students will design works of art that focus on concepts learned. ***(Students will need to contribute \$5 for supplies and may be asked to bring things from home for their projects.)**
65. **BEGINNING PHOTOGRAPHY** – entering grades 6-8 (1 hour)
This class is for students interested in learning the basics of camera operation and handling. They will get experience in traditional photography and digital photography, as well as editing, printing and developing.
66. **SOCCER** – entering grades 6-8
This course will not only include the practical aspects of the games, such as skill improvements, but also focus on the strategy of the game. This will be accomplished through classroom discussions, visual aids and immediate application.
67. **SEW A FRIEND** – entering grades 3-5

This is a fun course which includes basic sewing instruction that will teach beginners how to sew and provide both the beginner and experienced sewer with unique fun projects. *(Students will need to contribute \$14 for supplies)

68. **INSTRUCTIONAL GOLF** – entering grades 6-8
Learn how to hit a golf ball -- drive, chip and putt. A mini golf course will be constructed.
69. **COOKING FROM START TO FINISH** – entering grades 6-8
Students will plan a balanced meal each week; including breakfast, lunch, and dinner and use their training from their health classes to determine what a balanced meal consists of. Students will also learn to budget their money and go shopping for their own food to make real life connections. (There will be a \$20 fee for class supplies).
**** Please list all food allergies on the registration form when enrolling in a cooking class.****
70. **FUN WITH JEWELRY** – entering grades 6-8
In this course, we will complete several jewelry making projects using a variety of techniques and materials.
***(Students will need to contribute \$5 for supplies)**
71. **BROADCAST JOURNALISM** - entering grades 6-8
Joining a love of news reporting, photography, videography, students will plan and produce the daily announcements and an end of the year digital slide show. Students can chose to work on screen and/or behind the scenes to chronicle the events of WSSP.
72. **SCRAPBOOKING II** – entering grades 6-8
If you have some photographs and would like to do something creative with them, join the new scrapbooking course! Bring your photos and creative talents to construct beautiful scrapbooks that you can keep forever! **Fee for the course is \$8** which includes the scrapbook and materials. Additional materials may be purchased throughout the course. Students will need to have a variety of photographs to sort – recommended 3-5 pictures per day.
73. **LEGO ROBOTICS II** – entering grades 6-8
Students will design robots out of Legos to carry out various tasks. They will also learn to program these robots using the Lego Mind storm System. At the end of summer school there will be a competition with the different robots involved.
74. **MATH MASTERS II** – entering grades 6-8
Students will improve their basic math skills while enjoying games, puzzles, brain teasers and operating manipulatives. This is a must for pupils wanting to learn their facts and strengthen their abilities.
75. **CHILD CARE** – entering grades 6-8
This course will provide the student with the knowledge, information and skills they need to know about babysitting. This will include: ages and stages, children’s emotions, infant care and handling, feeding, discipline, health, legal aspects, safety, emergency situations, emergency medical, minor medical, common problems, responsibility and trust.
76. **CHEERLEADING II** – entering grades 6-8
This course will offer the student an introduction to basic cheerleading skills, conditioning, partner stunts, cheers and pom pom routines. Cheerleading is an opportunity to express spirit and a way to have fun exercising. The skills taught will be helpful in future try-outs.
77. **UNIFIED SPORTS and FRIENDSHIP** – entering grades 3-5 and 6-8
The WSSP Unified Sports and Friends course will offer students with and without intellectual and/ or physical disabilities the opportunity to participate in organized sports. Focus will be on fundamentals like running, kicking, throwing and hitting as well as the development of a team culture among participants.
78. **FOOTBALL** – entering grades 6-8

Learn the game of football without physical contact. Kicking, punting, running and passing. Emphasis will be placed upon rules, skills and physical conditioning. Every effort will be made to cluster students by grade levels.

79. **INSTRUCTIONAL BASKETBALL II** – entering grades 6-8

This class teaches advanced fundamentals of dribbling, passing and shooting. There will be mixed games of 2 on 2 and 3 on 3.

80. **STUDENT VOLUNTEER** – For high school students only – entering grades 9-12

An excellent opportunity for responsible, conscientious students considering a career in education, child development, day care management, social work, psychology, coaching or any field of human services. Student volunteers will assist teachers in areas utilizing their special strengths and interests.
