I. DEFINITIONS

II. PROCEDURES

- In the event of medical emergencies, such as a pandemic flu outbreak, school officials shall cooperate and consult with the local state health departments and other local emergency or healthcare providers in protecting students and the community from further infection.
- Communicate regularly with parents informing them of the school status and expectations during periods of increased disease.
- Continue to educate students, staff and families on the importance of hand hygiene and respiratory etiquette.
- Follow a regular cleaning schedule of frequently touched surfaces including handrails, door handles and restrooms using usual cleaners.
