

June 20-24, 2016

Objectives

1. Explore health professions roles
2. Participate in interactive skills and activities
3. Introduce the college setting
4. Explore the skills and foundation needed for success with college level courses
5. Introduce the hospital, college, and university settings
6. HAVE FUN LEARNING!

Health Sciences Academy

Valley Health System partners with the public schools of Winchester City and Clarke, Frederick, Page, Shenandoah and Warren counties to promote interest and education in the health professions. Today's high school student becomes tomorrow's health professional engaged in exciting career paths.

During the ONE WEEK Academy selected participants take a Student Development course (SDV101-college credit) at LFCC designed to assist students with transition from high school to college. Participants also engage in hands-on learning activities at Winchester Medical Center, Shenandoah University, and LFCC.

Obtain a Health Science Academy application from your school counselors and **submit by March 13**. Notification of selection **announced April 11**. Scholarships are available.

Contact: Lisa Zerull, PhD, RN lzerull@valleyhealthlink.com

Applications due to HS Counselors by **March 13**
